– Careernestle

[Live](#) | [Front-End](#) | [Back-End](#)

This project is basically an online biased job portal.

- It helps a user to find the job of their choice very easily.
- A buyer can find employees for any of their upcoming projects.
- A common user can easily select the job of their choice from the filter option by going to the all job section.

Technologies: React.js, Tailwind CSS, Firebase, Daisy UI, Node.js, Express.js, MongoDB, JWT, Tanstack query, etc.

– Dream Art

[Live](#) | [Front-End](#) | [Back-End](#)

D-ART is an art and craft-related website where all kinds of man-made art and crafts are sold. It is a multi-dimensional platform that allows users to

- Customize the art and crafts of their choice.
- Access certain sections of the website with a user account login.
- Become a merchant and sell their own art and crafts.

Technologies: React.js,CSS3, Firebase,Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Tanstack query, etc.

Education: Bachelor of Science in Computer Science Engineering | 2022 – Present

Bangladesh University of Business and Technology (BUBT)
